Beginners, on the other hand, get sore but bounce back quicker since the muscular damage isn't as severe. If the word "damage" makes you flinch, don't worry. It's a good thing for a bodybuilder to incur limited muscle damage, because it nudges the body to recover and overcompensate (grow) slightly to prepare for future workouts.

*Beginner's Bodybuilding Program: A Step By Step ...*

Novice female bodybuilders should start by weight training four days per week. Your muscles require 72 hours of rest after high-volume workouts, but you can lift four days per week by splitting your workouts into separate sessions. On Mondays and Thursdays, focus only on your legs, back and biceps.
