mercury outboard controls products for sale | eBay

The internal parts of the valve body, stem, seating material, package, disc, plug, back rings, etc., are collectively referred to as the trim. In other words, all wetted parts which can be removable and replaceable in the valve body are part of the control valve trim. The valve body, a bonnet that comes in contact with process liquids is not considered as trims.

Types of Control Valve Trim | Instrumentation Tools

The 1150 control valve mounts to the bottom of te PTT pump, with an input and output port. The control valve doubles the ports and also has valves and springs to hold the motor in any trim or tilt angle. The Mercruiser PTT pump has a single input and output port and hooks to a fitting on the sterndrive casting, which doubles the ports. I am not sure what else is in that fitting. It may be the equivalent to the 1150 control valve or not.
